# SCH/PPH Series

*Most reasonable and general wound filter!*

## 特長 Features

- SCH Series : Standard cotton yarn / SUS-304 core exhibits excellent heat oil and organic chemical resistance characteristics.
- PPH Series : Standard polypropylene yarn / core is resistant to chemicals.
- The outside of these filters are coarse, becoming increasingly fine / dense towards the core, providing resistance to sudden clogging and efficient filtration.

## 仕様 Specifications

SCH/PPHシリーズ		SCH/PPH Series		01X	03X	05X	10X	25X	50X	100
ろ過精度(μm)		Filtering Rating(μm)		1.0	3.0	5.0	10	25	50	100
材質	Material	Main-filter medium		コットン(SCH)・ポリプロピレン(PPH)			Cotton(SCH)・Polypropylene(PPH)			
		Sub-filter medium		—			—			
		Molding quality of the material		SUS304(SCH)・ポリプロピレン(PPH)			SUS304(SCH)・Polypropylene(PPH)			
寸法	Dimension	全長	Length	10inch / 20inch / 30inch						
		外径	Outer Diameter	60mm						
		内径	Inner Diameter	30mm						
耐熱		Heat Resistant Temperature		150°C(SCH)・80°C(PPH)						
耐圧		Allowable Pressure		0.49MPa
